

SCIENTIFIC PROGRAMME OF THE CONGRESS OSTEOPATHY OPEN 2019
 «Modern Approaches to Health Restoration and Maintenance : Interdisciplinary Dialogue »
 Moscow

June 14th

09:00-09:30								Opening ceremony of the congress							
09:30-13:00								Plenary session «Modern approaches to health restoration : interdisciplinary dialogue» A1							
13:00-14:00								Обед							
	Auditorium №1		Auditorium №2		Auditorium №3		Auditorium №4		Auditorium №5		Auditorium №6		Auditorium №7		
14:00-16:00		Symposium B1 Interdisciplinary approach to treatment of neurological patients. Rehabilitative potential of osteopathy		Symposium B2 Functional approaches to rehabilitation of children <i>Moderators:</i> <i>Aptekar I. A.,</i> <i>Batysheva T.T.</i>		Symposium B3 Body and emotion. Osteopathy and psychotherapy <i>Moderators:</i> <i>Frolov V. A.,</i> <i>Ustinov A.V.</i>		Symposium B4 General issues of osteopathy. Approaches to treatment of functional disorders <i>Moderators:</i> <i>Tregubova E.S.,</i> <i>Potekhina Yu.P.,</i> <i>Nenashkina E. N.</i>		Symposium B5 Osteopathy, dentistry and speech therapy. Ways of Interaction. <i>Moderators:</i> <i>Antonik M. M.,</i> <i>Chechin A. D.</i>		Symposium B6 Chinese medicine, reflex therapy and osteopathy <i>Moderators:</i> <i>Shyryaeva E.E.</i>		Симпозиум B8 Possibilities of correction of functional metabolic disorders. <i>Moderators:</i> <i>Chernysheva T.N.,</i> <i>Vasilieva L.F.</i>	
16:00-16:15 Coffee-break															
16:15-18:00		<i>Moderators:</i> <i>Belyaev A. F.,</i> <i>Fedin A. I.,</i> <i>Belash V.O.</i>										Round Table B7 Biodynamical approach in osteopathy <i>Moderators:</i> <i>Litvinov I.A.,</i> <i>Makalyutina N.V.,</i> <i>Gall L.N.</i>			
09:30-18:30								Meeting of the professional commission on osteopathy of the Russian Federation Ministry of Health							

June 15th

	Auditorium № 1	Auditorium № 2	Auditorium № 3	Auditorium №4	Auditorium №5
09:30-13:30	<p>Workshop C1</p> <p>Functional metabolic disorders and methods of their correction in doctor's practice</p> <p><i>Chernysheva T.N.</i></p>	<p>Workshop C2</p> <p>Global psychoviscerosomatic disorder : psychological, visceral and biomechanical aspects. Principles of correction of somatic dysfunctions</p> <p><i>Ustinov A.V.</i></p>	<p>Workshop C4</p> <p>parts 1 and 2</p> <p>Osteopathic treatment of infectious diseases in children in the XIX—XX centuries and present point of view</p> <p><i>Liem T.</i></p>	<p>Workshop C5</p> <p>parts 1 and 2</p> <p>Osteopathy as noninvasive surgery. Treatment of adhesions by manual techniques</p> <p><i>Bozzetto M.</i></p>	<p>9.30-11.00</p> <p>Open lecture C8</p> <p>Slow intracranial volume fluctuations. Quantitative analysis. Practical implication.</p> <p><i>Moskalenko Yu. E.</i></p>
11:30-13:30		<p>Workshop C3</p> <p>Secrets of communication—successful treatment (Doctor – patient. Secrets of successful communication)</p> <p><i>Gurichev A.A.</i></p>			<p>11.00 -13.30</p> <p>Meeting of directors of osteopathic schools C9</p> <p>Round table «Current issues of osteopathic education»</p>
13:30-14:30 Lunch					<p>14.30-17.30</p> <p>Meeting of the international research group on osteopathy C10</p>
14:30-18:30	<p>Workshop C6</p> <p>Resource restoration in people. Global effect techniques for the resource state of a patient with the use of methods of TCM and osteopathy</p> <p><i>Shyryaeva E.E.</i></p>	<p>Workshop C7</p> <p>Functional Disorders and International Classification of Functioning (ICF)</p> <p><i>Batysheva T.T.</i></p>			

June 16th

Заседание комиссии по терминам					
08:30-09:30	Auditorium № 1	Auditorium № 2	Auditorium № 3	Auditorium №4	Auditorium №5
09:30-13:30	Workshop D1 Chronic pelvic pain : osteopath's and internist's point of view. Diagnostic methods and treatment.	Workshop D2 Methodology of trauma treatment—combination of functional and biodynamical approaches	Workshop D3 Osteopathic manipulations : effectiveness and safety of cervical manipulations <i>Pauwels J.</i>	Workshop C5 parts 3 and 4 Osteopathy as noninvasive surgery. Treatment of adhesions by manual techniques <i>Bozzetto M.</i>	Workshop D8 Clinical and functional relationship between the stomatognathic and the musculoskeletal systems <i>Khvatova V.A., Chechin A.D.</i>
13:30-14:30 Lunch	<i>Belyaev A.F., Karpenko N.A.</i>	<i>Litvinov I. A.</i>			
14:30-18:30	Workshop D5 Osteopathic aid in complex treatment of psychoverbal development disorders in children <i>Aptekar I. A.</i>	Workshop D6 Methodology of trauma treatment—combination of functional and biodynamical approaches <i>Desrosiers F., Litvinov I. A.</i>	Workshop D7 Possibilities of osteopathic follow-up of pregnancy on the background of extragenital pathology <i>Belash V.O., Nenashkina E.N.</i>		Workshop D4 Neurodynamical osteopathic approach in treatment and rehabilitation of patients with musculoskeletal pathologies <i>Mokhov D.E.</i>

June 14th

Opening ceremony of the congress

09:00-09:30

Opening speech: Kagramanyan I.N., Baranov A.A., Batysheva T.T., Tarasenko A.I., Fedin A.I.

Plenary session «Modern approaches to health restoration and maintenance : interdisciplinary dialogue» A1

09:30-13:00

Moderators: Mokhov D.E, Tregubova E.S., Belyaev A.F.

1. Mokhov D.E., Tregubova E.S. Osteopathy in Russia: organizational, clinical and physiological aspects

2. Safonicheva O.G. Role of osteopathy in the conception of modern “4P” medicine

3. Fedin A. I. Neurology and osteopathy: raised bridges?

4. Batysheva T.T. Rehabilitation of children and osteopathy. Way towards each other

5. Moskalenko Yu.E. Slow intracranial volume fluctuations: phenomenology, possible mechanisms

6. Perrin R. Can physical assessment techniques aid diagnosis in people with chronic fatigue syndrome/myalgic encephalomyelitis?

7. Belyaev A.F. Rehabilitation of patients with chronic pelvic pain as a model of interdisciplinary interaction

8. Gadet Ph. Segmental innervation: a graphic synthesis of somato-visceral correspondence.

9. Chernysheva T.N. Integrative medicine in the system of diagnostics and treatment of functional alterations of health

June 14th

Symposium B1

Interdisciplinary approach to treatment of neurological and orthopedic patients. Rehabilitative potential of osteopathy

14:00-18:00

Moderators: Belyaev A.F., Fedin A.I., Belash V.O.

1. Belyaev A.F. Belomestnov P.V. Role of osteopathy in interdisciplinary approach to rehabilitation from carpal tunnel neuropathy
2. Andreev V.V. Osteopathic treatment of post-stroke spasticity
3. Krutov G.M. Integrative approach to foot health
4. Litvinov I.A. Osteopathic treatment of traumas with bone fracture in acute and subacute periods
5. Orel A.M., Malakhovsky V.V., Semenova O.K. Anomalies of vertebral column development in middle-aged patients with dorsopathies in accordance with the data of the system analysis of roentgenograms
6. Sebyakin Yu.V., Sebyakin A.Yu., Tarusova K.S. Clinical experience of combined treatment of carpal tunnel syndrome in closed complicated fractures of forearms
7. Belash V.O. Objectification of osteopathic treatment in patients with cervical and thoracic dorsopathies
8. Rylsky A.V. Effectiveness of complex restorative treatment of post-stroke patients in residual period with the use of osteopathic treatment
9. Kozlova N.S. Osteopathic correction in complex therapy of patients with post-stroke periartropathy of shoulder joint
10. Stefanidi A.V., Balabanova N.B. Dynamical carpal tunnel syndrome: system approach to diagnostics and treatment
11. Salakhov I. E. , Novikov Yu. O. Nonmedicamentous treatment of tension-type headache
12. Krutov G.M. Evidence-based functional orthotic therapy
13. *Geffroyd A. Use of vascular osteopathic techniques in treatment of inflammatory process. Interventional research held on lateral ankle joint luxation (pilot clinical study) poster presentation*
14. *Potekhina Yu.P., Timanin E.M., Novgorodsky K.E., Sidneva N.S. Influence of osteopathic correction on viscoelastic qualities of tissues (publication in materials of the congress)*

June 14th

Symposium B2

Functional approaches to rehabilitation of children

14:00-18:00

Moderators: Aptekar I.A., Batysheva T.T.

1. Belyaev A.F., Malchyuk V.A., Karpenko N.A. Possibilities of osteopathy in rehabilitation of newborns with pain syndromes
2. Liem T. Osteopathic treatment of infectious diseases in children in the XIX—XX centuries and present point of view
3. Rubinov M.A., Atyakshev A.V., Stepanenko D.G., Davydov O.D. Osteopathy in complex treatment of children with ICP
4. Safonicheva O.G. Plasticity of brain. Osteopathy in complex rehabilitation of children with physical conditions
5. Vinitzkaya T.V. Research of expectations and quality factors of osteopathic healthcare according to parents of young and junior patients
6. Mironov A.A. Osteopathic correction of progressive myopia in schoolchildren
7. Abramova E.V. Osteopathic aid in complex treatment of delay in speech development in children. Multidisciplinary approach. Recommendations and protocols of interaction
8. Aptekar I.A. Experimental modelling of osteopathic aid. Scientific objectification and justification
9. Melnikov P.A. Osteopathic follow-up of pregnancy as an early prevention of postural disorders in children
10. Kuzmina Yu.O. Differential osteopathic diagnostics in treatment of young children. Limitations of method.
11. Musina G.M. Effect of osteopathic treatment on certain comorbid conditions in children with epilepsy
12. Suslova G.A., Mizonova I.B., Bobko A.Ya., Orel V.V. Experience of osteopathic education in pediatric university
13. Shadrin O.N. Osteopathy in prevention and correction of muscle tone disorders in infants under 1 year of age

June 14th

Symposium B3

Body and emotion. Osteopathy and psychotherapy

14:00-16:00

Moderators: Frolov V.A., Ustinov A.V.

1. Ustinov A.V. Emotional body. Key body regions for correction of psychosomatic disorders

2. Pervushkin E.S. Osteopathy as a basis of psychological aid

3. Krasnoyarova N.A. Osteopathic medicine as a feasible way of correction of pain

4. Frolov V.A. Osteopathy in treatment of neurotic emotional and affective disorders

5. Belyaev A.F., Fedorova G.M. Osteopathy and SOLWI-therapy: psychodynamic approach

6. Piskunova G.E., Belyaev A.F. Effect of osteopathic treatment on cerebral circulation in students during high stress loads

7. Gurichev A.A. Secrets of communication between the doctor and the patient

8. *Szczepaniak L.* Place of osteopathy in treatment of professional burnout syndrome (pilot clinical study).

June 14th

Symposium B4

General issues of osteopathy. Approaches to treatment of functional disorders

14:00-18:00

Moderators: Tregubova E.S., Potekhina Yu.P., Nenashkina E.N.

1. Clouzeau C. Perception in osteopathy
2. Potekhina Yu. P., Tregubova E.S., Mokhov D.E. Justification of mechanisms of development of somatic dysfunctions and of effect of osteopathic treatment.
3. Neustroyev L.K. Complex approach to rehabilitation. Role of osteopathic physician in multidisciplinary team
4. Bozzetto M. Osteopathy and manual techniques on breasts after surgical intervention
5. Nenashkina E.N. Osteopathic follow-up of pregnant women with chronic pyelonephritis
6. Oreshko A.Yu. Osteopathic correction of biliary disorders
7. Tabina A.E., Mazalsky K.V., Leleka E.M., Salikhova E.F. Possibilities of osteopathic treatment of patients with paroxysmal atrial fibrillation
8. Khestanov D.B., Magich M.V., Litvinov I.A. Possibilities of osteopathic follow-up of patients with malignant tumors of musculoskeletal system on the background of polychemotherapy
9. Odinets A.G., Fadeev A.V., Polovinko M.V. Osteopathic techniques for restoration of organ and tissue perfusion as a key element for launching self-healing mechanism in the body
10. Pauwels J. Research on the influence of osteopathic techniques on acoustic voice parameters and ease of voice
11. *Mironov A.A., Yanova E.N. Electronic computer-based medical record of an osteopathic patient. Poster presentation*

June 14th

Symposium B5

14:00-18:00

Osteopathy, dentistry and speech therapy. Ways of interaction.

Moderators: Antonik M. M., Chechin A. D.

1. Postnikov M.A. , Trunin D.A., Ispanova S.N. Modern methods of functional diagnostics in orthodontics and osteopathy
2. Antonik M.M. Formation of kinematics of temporomandibular joint and of occlusion of dental arcades in connection with the state of the cervical spine
3. Chechin A.D., Galeev A.V., Bystrov V.V. Neuromyofascial correction of postural and TMJ disorders
4. Tisovskaya Yu.A. Current issues and perspectives of interdisciplinary interaction : osteopathic physician, speech therapist, orthodontist
5. Zdobnov D.S., Litovchenko Yu.P., Yanova E.N. Protocol of collaborative work of osteopathic physician, orthopedist-dentist and orthodontist in treatment of patients with malposition of teeth and jaws
6. Kantsepolsky A.N., Tsymbalov E.E., Vasilieva M.B. Interdisciplinary examination and treatment of patients with temporomandibular joint dysfunctions
7. Zakharov A.V. Instrumental registration of primary respiratory mechanism
8. Romanenko N.V. Obstructive sleep apnoea syndrome and postural disorders
9. Novikov V.S., Novikova I.V., Tekutieva N.V., Khorolskaya L.A., Semenova A.N. Orbits of interaction of osteopaths and dentists in complex treatment of stomatological patients
10. Belyaev A.F., Semashko S.A., Lisetskaya N. G. Experience of osteopathic correction of speech disorders
11. Tuyeva I.D., Vinitzkaya T.V., Kamaletdinov V.L. Justification of osteopathic methods of correction in rehabilitation of children with congenital maxillofacial pathologies
12. Khvatova V.A. Diagnostics and treatment of craniomandibular dysfunctions

June 14th

Symposium B6

Chinese medicine, reflex therapy and osteopathy

14:00-16:00

Moderator: Shyryaeva E.E.

1. Lee I.L. Dysfunctions of modulating brain systems in children. Osteopathy and traditional Chinese medicine.
2. Malakhovsky V.V. Methods of osteopathy and reflex therapy in complex rehabilitation of patients with pelvic pain
3. Shyryaeva E.E. Diagnostics of the resource state of the human body for choosing the treatment strategy. Integration of methods of traditional Chinese medicine and osteopathy
4. Azarova E.K., Lyamin M.V., Yudin V.E. Use of methods of traditional Chinese medicine and osteopathy in complex restorative therapy of wounded patients in conditions of general hospital
5. Akhmetsafin A.N. Cranium and sacrococcygeal complex in Chinese medicine
6. Safiullina G.I., Safiullina A.A., Gilaeva A.R., Ishakova A.Sh. Traditional medicine in preservation of people's health
7. Boldin A. V., Agasarov L.G., Tardov M.V. Interdisciplinary approach to treatment of concomitant cochleovestibular syndrome
8. Sokolova T. E. Traditional diagnostics of syndromes as a uniform base for acupuncture treatment and phytotherapy
9. Kartavenko S.S. Integrative methods on the basis of innovative method of electropunctural reflex therapy « REAT » in therapeutic rehabilitation practice

June 14th

Round table B7

Biodynamical approach in osteopathy

16:15-18:00

Moderators: Litvinov I.A., Makalyutina N.V., Gall L.N

Participants:

Gall L.N., Litvinov I.A., Makalyutina N.V., Vyaltsev A.V., Chavychalov D.S., Piskunova G.E., Belyaev A.F., Prikhodko A.E., Desrosiers F.

June 14th

Symposium B8

Possibilities of correction of functional metabolic disorders.

14:00-18:00

Moderators: Chernysheva T.N., Vasilieva L.F.

1. Chernysheva T.N. Complementary approach to metabolic therapy of neuro-immune-endocrine dysfunctions
2. Vasilieva L.F. Differential diagnostics of dysfunctions of somatic and vegetative nervous systems
3. Sukhorukov O.G. Possibilities of use of regulation therapy and homotoxicology in diseases of nervous system.
4. Pilyavsky S.O., Mogelnitsky A.S. Use of manual muscle testing in diagnostics of metabolic component of somatic dysfunctions
5. Lvov S.I. Experience of diagnostics and restoration of adaptive reactions in patients with somatic dysfunctions with the use of manual muscle testing
6. Borodulin V.G. Experience of use of autonosodes in treatment of ORL-pathologies
7. Tregubova M.V. Hormonal dysfunction in women. Kinesiologic diagnostics and osteopathic correction
8. Yakunina N.A. Increase of effectiveness of osteopathic treatment of ocular hypertension in open angle glaucoma in combination with metabolic therapy
9. Pichugin V.I. Perspectives and possibilities of use of kinesiologic diagnostics for metabolic and emotional correction in practice of osteopathic physician
10. Lavrenov V.M. Special aspects of correction of inflammatory component in herniation of intervertebral disc
11. Molotkov S.V. Kinesiological diagnostics of infections of urinary tracts
